

THE SKINNY™

Why The Skinny?

Your body deserves the best. Our products are pure, nourishing, and powerful, and never contain synthetic chemicals or preservatives. We promise. Every product is created with our patented, non comedogenic coconut oil as the base, and nourishes your entire body from the outside in.

Our Story

Skinny & Co.® was founded in 2013 to produce pure, concentrated coconut oil that retains all the rejuvenating benefits of the coconut and none of the impurities. But we didn't stop there. In response to the exposure of the thousands of chemicals found in skin and personal care products, we used our coconut oil to create products that nourish your whole body while staying 100% natural. We are redefining skin care with products you can trust.
